PROFILE

Creative and detail-oriented Frontend Developer skilled in React.js, Next.js, TypeScript, Tailwind CSS, and modern UI design. Passionate about crafting intuitive, user-centered interfaces and building scalable, responsive web applications. Currently developing skills in blockchain development and smart contract integration. Strong collaborator with experience in technical writing, graphic design, and cross-team communication.

WORK EXPERIENCE

Frontend Developer (Intern) — Chaindustry | 2024 – Present

- Built and maintained responsive web interfaces for blockchain-based applications.
- Collaborated with developers to design and test smart contract frontends.
- Improved UI consistency and performance using React, Tailwind, and Framer Motion.
- Contributed to marketing campaigns as a Web3 Ambassador.

Frontend Developer (Intern) — HNG Internship | 2025 – Present

- Implemented real-world frontend tasks in agile, team-based projects.
- Practiced Git/GitHub collaboration and CI/CD integration.
- Developed reusable UI components using TypeScript and React.js.

Frontend Developer (Freelance) — Personal & Open-Source Projects | 2022 – Present

- Developed responsive apps such as Bella Store and NFT Marketplace.
- Integrated Framer Motion for animations and enhanced UX.
- Designed clean and modern UI layouts in Figma.

EDUCATION

University of Uyo — Master of Medical Science | 2020 – Present

St. Brian Model College — JSCE, SSCE, WASSCE, NECO, GCE | 2015 – 2020
